

**Job Title: Quality Analyst** (full time; multiple openings), Job Code – CT2315

**Work Experience Required:** 2 years

**Location:** Princeton, New Jersey and various unanticipated locations throughout the U.S

**Duties:**

- To assist in designing scalable, robust, and maintainable automation test frameworks for use in IT projects for clients in the U.S. healthcare vertical.
- Establish test plans that align with overarching project strategy.
- Participate in designing test scripts, or query database as needed.
- Collaborate with stakeholders to identify areas of automation to improve overall test quality.
- Provide feedback to stakeholders on the Quality Assurance (QA) efforts and gather requirements for future projects.

Must have a Bachelor's Degree (or foreign equivalent) in Computer Science, Engineering (any), or related field, plus two years of IT experience. One of the two years of IT experience must include experience with Selenium Webdriver, Java, Azure & Angular. In lieu of a Bachelor's Degree (or foreign equivalent), we will accept a Bachelor's Degree (or foreign equivalent) earned through any suitable combination of education, training, and/or experience, as determined by a professional evaluation service. Travel to various CitiusTech sites and clients' sites required based on project need. Domestic and international travel needed to CitiusTech and clients' sites. Travel expected to take up to approximately 7% of the time per year. Travel and reimbursement costs reimbursed by the employer based on internal policy. EOE M/F/D/V.

Please apply by forwarding resumes to CitiusTech Inc. at [us\\_jobs@citiustech.com](mailto:us_jobs@citiustech.com). Please indicate the reference code(s) with respect to your position of interest in your communication. CT2315
