Provider – Offerings

Digital transformation for Provider

Supporting Provider organizations by improving operational and clinical efficiencies, quality, and accessibility of care. Design and develop solutions, provide technology leadership, subject matter expertise and support to design and develop new greenfield applications using leading edge technology through CitiusTech Engineering.

Areas of Expertise

Provider assessments

Engage in an assessment that identifies challenges, assesses performance, organizational alignments, process, and technology. Develop an optimization plan including execution strategies for remediation efforts and prioritization for maximum results. Includes business models to support stability and growth. Can be performed within areas of specialty or across the enterprise.

Provider optimization

Develop digital roadmaps and develop optimized processes following assessments for maximized results.

Vendor product assessment

Technical & functional assessments of third-party HIS products against various criteria such as HIMSS Level 7 or industry best.

Consumer engagement for Payviders

Digital Blueprint for Payviders to deliver an integrated and seamless consumer experience

GenAI business solutions

Agent Assist, Prior Auth, Medassist, Smart Search etc. POCs developed with demos showing GenAI capabilities in business

Digital specialties

Create a digital-first blueprint for specialty providers and a roadmap to transform

Data strategy and business value

Help providers and Payviders derive value from data by creating a business engagement strategy and creating a business value and roadmap of data-driven use cases.
