

# Research Platform for Imaging Data

## Business Challenge

- Client is a global biotechnology corporation which wanted to build a cloud-hosted global collaboration portal across multiple stakeholders including data scientists, providers, governments, and scientific & research communities.
- Client partnered with CitiusTech to build the imaging specific portion of their portal to ensure that the implementation was compatible with their comprehensive data management strategy.

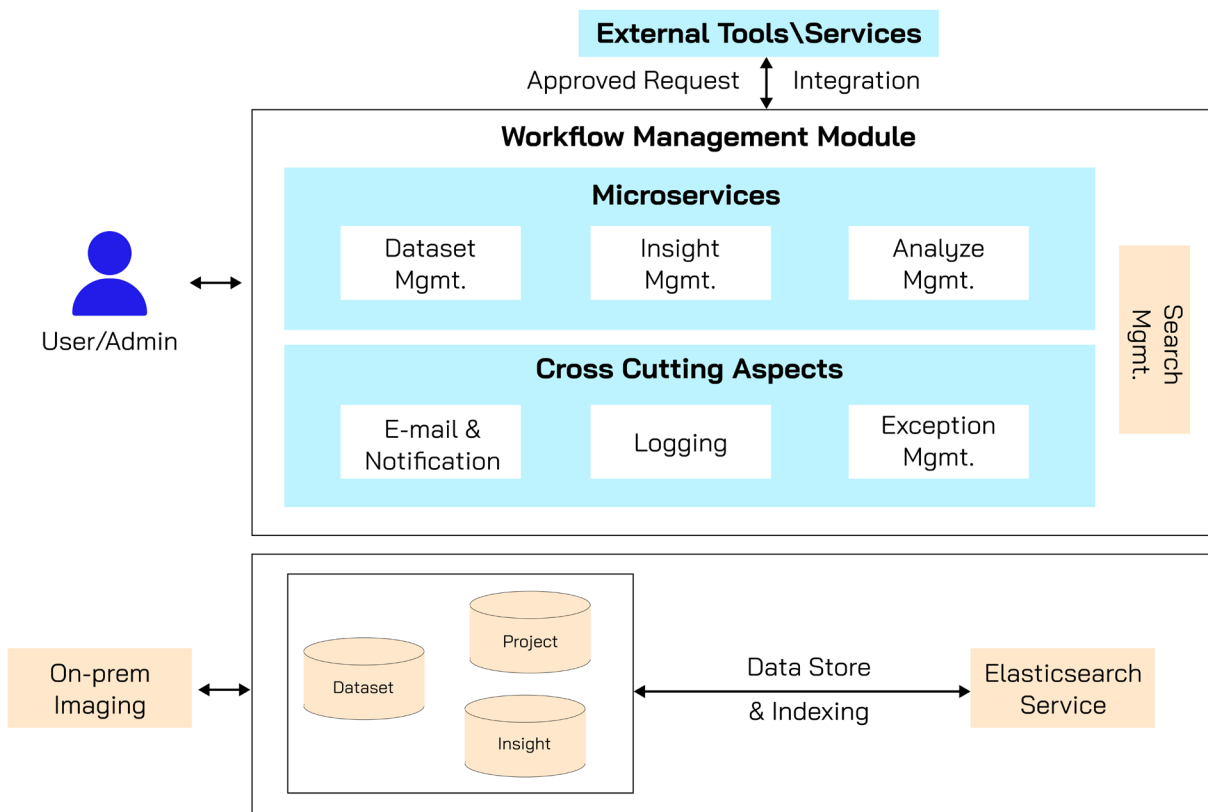

**CASE STUDY**

**CITIUSTECH SOLUTION**

- Conducted a short-term consulting engagement to clearly define the requirements for imaging data integration by working with a broad set of stakeholders across the client’s user base.
- Worked closely with key technical stakeholders from the client side to ensure that the overall imaging solution was seamlessly integrated into the existing collaboration portal.
- Built a robust image ingestion infrastructure to move imaging data into the AWS S3 buckets.
- Developed a search module to provide access to key imaging data attributes required for research purposes spanning across public and private DICOM metadata as well as pixel level insights.
- Built a comprehensive auditability module to trace the transfer and record access of imaging data in a DICOM compliant format.

**SOLUTION SCHEMATIC**

## VALUE DELIVERED

---

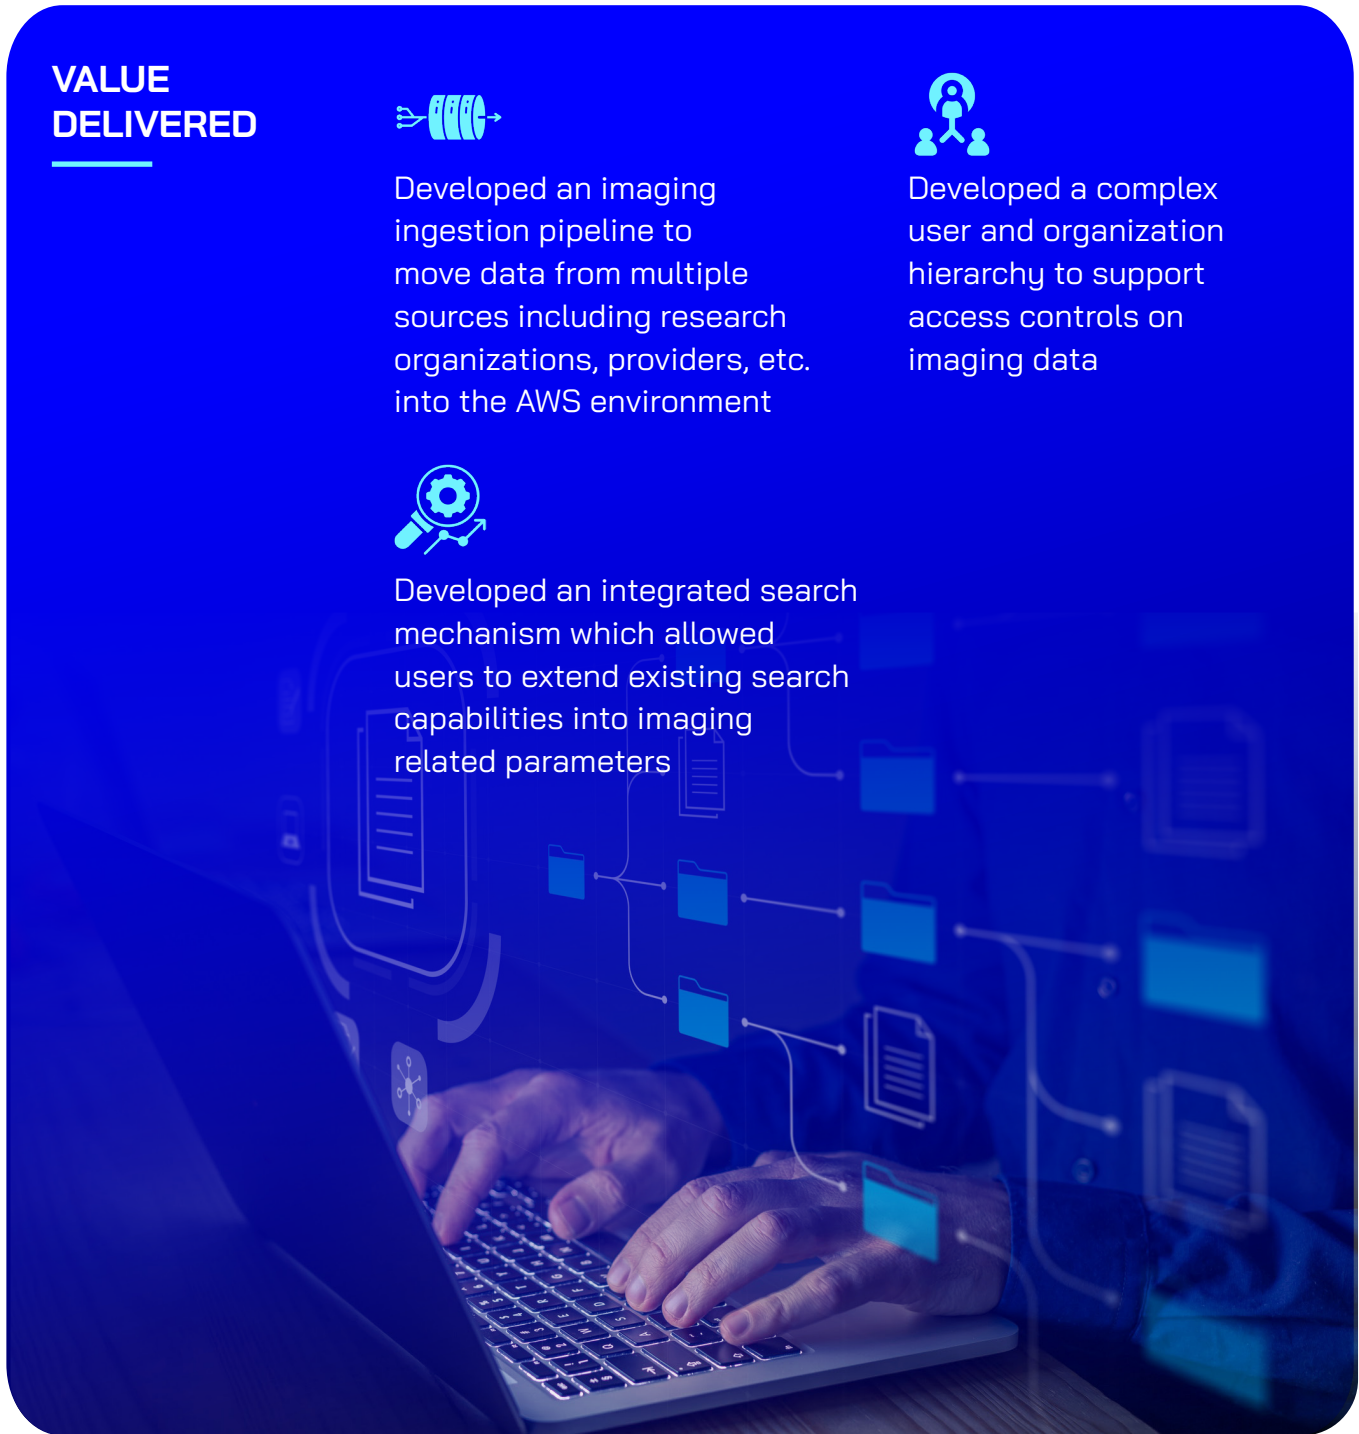

Developed an imaging ingestion pipeline to move data from multiple sources including research organizations, providers, etc. into the AWS environment

Developed a complex user and organization hierarchy to support access controls on imaging data

Developed an integrated search mechanism which allowed users to extend existing search capabilities into imaging related parameters

Shaping Healthcare Possibilities

CitiusTech is a global IT services, consulting, and business solutions enterprise 100% focused on the healthcare and life sciences industry. We enable 140+ enterprises to build a human-first ecosystem that is efficient, effective, and equitable with deep domain expertise and next-gen technology.

With over 8,500 healthcare technology professionals worldwide, CitiusTech powers healthcare digital innovation, business transformation and industry-wide convergence through next-generation technologies, solutions, and products.
